SUMMARY

Dedicated computer science student with hands-on experience in manual software testing. Skilled in test case design, defect identification. Eager to leverage my expertise in software quality assurance to contribute to innovative and reliable software solutions.

WORK EXPERIENCE

Manual Software Tester (Internship), IDSC (On-site)

Aug 2025 – Sep 2025

- Gain practical experience by working on real projects.
- Report bugs using tools such as Jam.
- Perform different types of testing, including functional, regression, and UI testing.

Manual Software Tester (Part-time), ITD (Remotely)

Sep 2024 – Jun 2025

- Conducted comprehensive manual testing to identify and report software defects.
- Performed API testing using Swagger to validate backend functionality.
- Provided detailed reports on test results, defects, and recommendations for improvement.
- Utilized test management tools like Jira for tracking bugs and test progress.

Software Testing (Internship), DEPI (Hypered)

Oct 2024 - May 2025

- Gained hands-on experience in testing throughout the Software Development Life Cycle (SDLC).
- Worked with test tools like Selenium and Postman for automation and API testing.
- Conducted test analysis and design to create effective test cases.

Manual Software Tester (Internship), ITD (Remotely)

Jun 2024 - Aug 2024

- Collaborated with developers and QA teams to enhance software quality.
 - Learned and applied software testing fundamentals, including SDLC and static testing techniques.
 - Gained hands-on experience in manual software testing, focusing on defect identification and reporting.
-

EDUCATION

A Bachelor's Degree in Computer Science

Oct 2022 - Present

Zagazig university

- Experience in problem-solving and debugging to enhance troubleshooting capabilities.
 - Basic knowledge of web development (HTML, CSS, JavaScript) for front-end.
 - Basic knowledge of backend development, including (Java and SQL) for back-end
-

SKILLS

Technical Skills

- **Testing Fundamentals:** Strong knowledge of SDLC, STLC, and the Defect Life Cycle. Capable of writing detailed test cases, executing test plans, and tracking defects.
- **Test Analysis & Design:** Skilled in reviewing user stories and requirements to design clear and effective test scenarios and cases.
- **API Testing:** Practical experience using **Postman** and **Swagger** for validating REST APIs.
- **Automation Basics:** Familiar with writing and maintaining test scripts using tools like **Selenium**.

Tools & Technologies

- **Test Management:** Experienced in using **Jira** for tracking bugs, managing sprints, and organizing test efforts.
- **Documentation & Reporting:** Comfortable using **Confluence**, **Google Workspace**, and **Excel** for test documentation and reporting.

Soft Skills

- **Problem Solving:** Analytical and detail-oriented approach to identifying and resolving issues efficiently.
- **Communication:** Strong written and verbal communication skills for creating clear documentation and working with team members.
- **Teamwork:** Cooperative, proactive, and reliable team player who values shared success and continuous improvement.
